PIANO RECITAL

In the larger cities the music lovers pay two and three dollars for a seat to hear the masters perform on the piano, and go into ecstasies over Paderewski or Rosenthal.

In our city, all music lovers will get this treat free this afternoon from 2 to 9 p. m. at the Clutter Music House, where the perfect reproduction of the masterpieces will be given by the Melville Clark Appolo. Prof. Bergman will reproduce the second Hungarian Rhapsodie as the great Paderewski interprets it in his tour just now.

The various program of classics and popular music will be rendered with absolute perfect tempo and technique.

And what Prof. Bergman does can be done by anyone who possesses the Melville Clark Appolo. It brings the music of the masters in your home, the popular operas as soon as they are out, are in your home, and there is no greater enjoyment than the playing on the Melville Clark Appolo.

The player is so constructed that by a simple arrangement it may be turned into a regular piano for hand-playing. Do not miss the recital. The treat will be a rare one for music lovers of Pensacola.

A COMMISSION PLAN ADOPTED

IT IS NOW A STATE LAW IN MINNESOTA—ANY CITY CAN HAVE IT.

A special from St. Paul, Minn., says:

The Works bill, giving the cities the right to establish the commission plan of government, is now a law.

Governor Johnson has affixed his signature to the measure and transmitted it to Secretary of State Schmahl for filing purposes.

The measure becomes effective at once, and any city in the state can now take advantage of its provisions.

Commenting upon the opinions advanced in some quarters that the commission law is defective, Attorney General Simpson, to whom the law was sent to be passed upon as to form, said while he had not looked into its constitutional features, he was positive that it was free from fatal flaws.

"Under an opinion given by this office some months back," said Mr. Simpson, "I believe I stated that cities of this state enjoying a home rule charter could adopt what is known as the commission plan of government without any further legislation. This bill is all right, but, in my opinion, it is not necessary.

Free for All.

"Any city or town in this state," continued Mr. Simpson, "can adopt a form of government providing it does not conflict with the criminal laws of the state or infringe on the constitution. Rules have been made by our supreme court on several occasions giving charter regulations of home ruled cities precedence over the general laws of the state."

Governor Johnson declared it was a good bill and he was pleased to have a hand in making it one of the laws of the state.

Plan for Duluth.

Duluth, Minn., April 16.—Since the passage of the enabling act by the legislature, allowing cities in Minnesota to adopt the commission form of government, there has been more or less discussion of the plan in Duluth, by public-spirited citizens and city officials, and it is not unlikely that the plan will be submitted to the voters at the next municipal election.

Even before the passage of the act the plan was quite freely talked of here, and it had already been brought before the public affairs committee of the Commercial Club, but had been sidetracked pending the action of the legislature. Since the passage of the act it will probably be again brought up at the next meeting of the committee.

WHEAT PLUNGER WHO RAN BIG CHICAGO CORNER

It is estimated that James A. Patten, the Chicago grain operator, cleared a profit of \$5,000,000 in the first five days of his big wheat campaign. Patten was able to sell about 6,000,000 bushels of May wheat at \$1.20 to \$1.25 which cost him \$1.01 a few months ago.

BOARD OF WORKS TO IMPROVE MANY STREETS

Desires to Utilize Balance of Special Appropriation of \$15,000.

SEVERAL STREETS ARE TO BE HARDENED IMMEDIATELY—W. B. WRIGHT IS GIVEN 48 HOURS IN WHICH TO REMOVE OBSTRUCTION FROM STREET OR IT WILL BE TORN AWAY FOR HIM.

It will be through no lack of desire or effort on the part of the present members of the board of public works if the remainder of the special appropriation of \$15,000 for street improvements is not all used at once, for that purpose, the members at the regular meeting of the board last night expressing their desires in this particular very freely and mapping out additional territory to be improved.

The city engineer was instructed to prepare specifications for the hardening of the following streets, and bids on the work will be asked for.

Ninth avenue from Intendencia street to Gregory. The motion to harden this street was made by Mr. Walker.

Reus street from Romana to Wright. The motion to harden this street was also made by Mr. Walker.

Spring street from Gregory to LaRue. The motion to harden this street was made by Mr. Forbes.

Figuring the ratio of cost at the same price for which the other portion of the street was built, the council will be asked to appropriate \$300 with which to build a hard road through Georgia square, on North Palafox street. The work of building this stretch of road was held up until the location of the square was ascertained. Now that its location has been established, a motion by Mr. Forbes that the work be done prevailed.

The decision to harden Davis street from Gadsden to Lee street and on Lee street to Ninth avenue was amended so as to continue the work one block further north.

Chas. Merritt, who submitted a bid of \$3,800 for this work, agreed last night to reduce his bid \$700 if the city will provide him with a clay pit on East Hill.

The matter was referred to the chairman with instructions that he take up the matter with the finance committee with a view to purchasing a clay pit on East Hill. The sum of \$3,800 has been appropriated by the council for this work.

Difference in Grades.
A communication from Hooton & Watson, relative to the difference in sidewalk grades, one of which was furnished by former Engineer Lee and another one by the present engineer, was referred to Engineer Thornton with instructions that he inform them that the city will only pay the cost of building a slope from one sidewalk to another where there is a difference in the grades.

Mr. Hooton, who owns the property

in front of which a sidewalk was built according to a grade furnished by Engineer Lee, wants the walk in front of his place to conform to the present grade, stating that he "is willing to do what is right about the matter, but is not willing to stand all of the expense of cutting down to comply with the new grade."

To Govern Sidewalk Building.
A suggestion by Chairman Daniels that the board pass a resolution requesting the council to draft an ordinance governing the building and inspection of sidewalks met with unanimous approval and a motion that such be done prevailed.

The law as it now stands provides only for the inspection of the work done by the sidewalk contractors under contract with the board, but if the council passes an ordinance in keeping with the resolution all sidewalks will be built according to specifications adopted by the city and inspected by an inspector in the employ of the city.

W. B. Wright was given 48 hours time in which to remove obstructions from West Pine street, leading to the city wharf. If he fails to remove it within the required time, the street superintendent will remove it.

Street Superintendent Burns's report on this matter was as follows: "I beg leave to report that W. B. Wright has not removed the old iron from Pine street, as he promised, but he started to fence in the sidewalk
